INTEGRATED ORIENTATION TRAINING PROGRAMME FOR MUNICIPAL OFFICIALS OF UTTAR PRADESH UNDER AMRUT

BACKGROUND:

In order to strengthen capacities of Urban Local Bodies, States and other stakeholders, the Ministry of Housing and Urban Affairs (MoHUA) has been implementing the Individual Capacity Building under its flagship mission of AMRUT. For efficiently implementing the following other flagship missions of the Ministry, a new Integrated Capacity Building Framework covering all urban Missions was designed and launched. RCUES Lucknow is one of the empaneled Training Entity for rolling out Integrated Orientation Training Programme for Municipal Functionaries of Uttar Pradesh.

The Orientation Programme covers the critical aspects of all the Urban Missions. In this context 12 Integrated Orientation Training Programme for Municipal Officials of Uttar Pradesh under AMRUT mission were conducted in this quarter.

ABOUT THE TRAINING

The three day training focused on the the development issues caused due to increasing urbanisation and discussed the strategies to be

opted in order to promote sustainable urban growth through organised planning, development and governance. Further detailed discussions about the AMRUT programme - the thrust areas under AMRUT, Reforms, Service Level Benchmarks (SLB), Service Level Improvement Plan (SLIP), State Annual Action

Introductory session chaired by Er A K Gupta, Additional Director, Dr Anjuli Mishra, Joint Director and oDr Alka Singh, Deputy Director, RCUES Lucknow

Participants during training session

Plan (SAAP), Funding Pattern, Capacity Building etc were carried out. The participants were briefed about the different missions/schemes of Ministry of Housing and Urban affairs (MoHUA) and their convergence.

The participants were made aware of various issues and challenges in the urban sector and emphasize on the role and convergence of various missions addressing the challenges.

The main aim of the orientation workshop is to sensitize the participants of various programmes/missions and identifying the key areas for capacity building under the Capacity

Building for Urban Development Project through Training Needs Assessment.

KEY OBJECTIVES

- Understanding the impact of inadequate urban services and its challenges faced by the cities
- Strengthening knowledge of municipal functionaries for implementing projects with convergence under existing schemes and missions
- Generating awareness about the innovative approaches leading to sustainable urban cities
- Knowledge of effective and sustainable solutions for achieving service level benchmarks in the trust areas

PARTICIPATION

Overall 227 officials participated in the programmes, the participants included officials of ULBs from Administration, Engineering & Finance wings.

COORDINATION

The programmes were coordinated by Dr. A. K. Singh, Assistant Director, RCUES, Lucknow.

Participants during site visit

INTEGRATED ORIENTATION TRAINING PROGRAMME FOR ELECTED REPRESENTATIVES OF NAGAR PANCHAYATS, UTTAR PRADESH UNDER AMRUT

BACKGROUND

The capacity of nations to pursue their economic and social goals depends on their ability to govern their cities. In order to strengthen capacities of Elected Representatives the integrated capacity building programme covers all Missions viz. Atal Mission for Rejuvenation and Urban Transformation (AMRUT), Swachh Bharat Mission (SBM), National Urban Livelihood Mission (NULM), Housing for All (HFA), Pradhan Mantri Awas Yojana (PMAY), & HRIDAY. To enhance the functional knowledge, improve the skills and change the attitude of elected representatives. eight two days Orientation Training Programmes for Elected Representatives of ULBs of Uttar Pradesh was organized by RCUES, Lucknow in this quarter.

KEY OBJECTIVES

The main objectives of the programme were:

- To discuss AMRUT reforms for improving the institutional outcomes with focus on accountability, transparency, efficient service delivery, citizen empowerment and resource mobilization.
- To orient the elected representatives with objectives, components and expected outcomes of the various flagship schemes viz. AMRUT Mission, Swachh Bharat Mission, National Urban Livelihood Mission and Housing for All.
- To share good practices for enhancing the knowledge and replication of good models.

PARTICIPATION

387 Elected Representatives including Chairman and Ward Members of ULBs of Uttar Pradesh were trained in 16 training programmes conducted during this quarter.

ABOUT THE SESSIONS

Elected representatives were imparted orientation training in which each training Programmes were of two days duration, the pedagogy adopted for elected representatives was innovative and interactive which included class room sessions, site-visits and discussions

with practitioners and experts to share and learn from good practices for enhancing the knowledge and replication of good models.

During the Orientation Training Programmes the elected representatives were made aware of decentralized governance system, emerging problems and challenges in urban governance due to rapid urbanization and functioning of urban governments. The session covered needs of basic urban infrastructure creation that has a direct link to provision of better services to people like water supply, sewerage, drainage, urban transport and green spaces/parks with specific focus on the Atal Mission for Rejuvenation and Urban Transformation (AMRUT) emphasis on mission coverage, components, programme management structure, fund allocation, execution, appraisal, implementation, monitoring process and reforms under AMRUT.

Convergence of different mission at the ULB level is essential and the elected representatives play very important role in the convergence. This training familiarize the participants with the concept, approaches, rational of convergence, steps, stages, task, activities and opportunities for achieving convergence with the central and state government schemes.

Sanitation agenda has been at the forefront of development in India. Swachh Bharat Mission was discussed during the training programme with emphasis on access to safe and sustainable sanitation for all, Elimination of open defecation, Eradication of Manual Scavenging, Modern and Scientific Municipal Solid Waste Management. Behavioral change regarding healthy sanitation practices and awareness about sanitation and its linkage with public health was also discussed. The Elected representatives were able to understand the need to create an enabling environment for private sector and community participation for achieving the Swachh Bharat Mission goals.

The Housing for All Mission for urban areas was also discussed. The training focused on identification of actual beneficiaries for providing houses to all eligible families under the Mission. During the session the elected

representatives were very curious to know the Eligibility criteria, components and other implementation related details of the scheme, which were discussed in details.

Reforms in urban sector are an important aspect which was discussed during the training. Rationale, importance and need of urban reforms were discussed. The process and status of urban reforms implementation through board and role of elected representatives was discussed. Skill up-gradation for better livelihoods opportunities in urban areas is essential for overall sustainable development in cities. The urban poor in general lacks the required skills for harnessing the income generating opportunities available locally. In view of this the orientation training programme also focused on the National Urban Livelihoods Mission which is committed to providing livelihoods to the urban poor through a combination of skill enhancement, self-employment, social security and institutional development. The discussions which the elected representatives focused on providing livelihoods to the urban poor, shelter and basic facilities for the homeless, designated street vending zones and vendor's markets, credit facilities and social security convergence for street vendors and urban poor. The mission coverage, components, sub components programme management structure, fund allocation, Implementation Strategy, execution and monitoring process under DAY-NULM were discussed.

EXPOSURE VISITS

Exposure visits to best practices is an integral part of the orientation training programmes for elected representatives. With the objective of sharing and learning from good practices for enhancing the knowledge and replication of good models the elected representatives were taken for exposure visits to decentralized solid

Participants during the sessions

Participants during site visit

and liquid waste treatment models. The elected representatives had elaborate discussion with the practitioner. The Model House Park project of Lucknow was initiated by active participation of the citizens and ward member. This visit was a peer learning among the elected representatives which was very fruitful. The participants were also taken to a Bio Gas Digester Plant which is an innovative model of the state government for generating gas through treatment of animal shelter waste along with liquid waste at Kanha Upvan, Lucknow.

COORDINATION

The training programmes were jointly coordinated by Dr. Anjuli Mishra, Joint Director, Mr. Himanshu Chandra, Assistant Director, RCUES, Lucknow.

TRAINING PROGRAMMES ON PROJECT MANAGEMENT, PUBLIC PRIVATE PARTNERSHIP & CONTRACT MANAGEMENT (CAPSULE III)

BACKGROUND:-

Provision of high quality infrastructure and service delivery in cities and urban areas is critical for realizing and sustaining their productivity. Public Private Partnerships (PPP) is a potential strategy to promote urban infrastructure investments, improve efficiency in service delivery and promote inclusive growth. Development of urban infrastructure through PPP is emerging as a key priority for the Government of India, State Governments and Urban Local Bodies (ULBs).

The Urban Missions and other centrally sponsored schemes (Smart City program, AMRUT, Swachh Bharat Housing for All) led by the Ministry of Housing and Urban Affairs, Government of India, provide the framework and incentives for states and urban local governments to promote PPP. However, structuring and implementing PPP projects that are both viable and affordable in critical sectors such as urban water and sanitation, urban transportation, solid waste management etc., remains a challenge. Capacity and knowledge gaps in developing PPPs is a major constraint.

In this context, the Regional Center for Urban and Environmental Studies organized four three-day training programme on Public Private Partnership, Tendering, Contract & Project Management under AMRUT in this quarter.

KEY OBJECTIVE:

The key objectives of the programme were:

- To acquaint the participants with need and importance of Public private partnerships (PPP) in urban infrastructure Projects in Urban Local Bodies.
- To orient the municipal staff on relevant PPP models for urban sector, Project development process, financial analysis, Project documentation, Bid procurement process, Development and management of concession agreement, Pro-poor strategies in PPPs Communication and consultation strategies for PPP and Good Practices and lessons from failures.

ABOUT THE SESSIONS:

The programme was designed keeping in view of the main objectives and relevant topics pertaining to public private partnership, tendering, and contract and project management in ULBs, the following topics were covered in the programme scheduled ; Project Structuring: Key Issues and Challenges; Basic concepts & Pre-requisites of Public Private Partnerships; Financial Aspects of Public-Private Partnership;

Legal Framework for structuring Projects under Public Private Partnership; Contract Framework & Contract Management for PPP Projects; Project Management: Concept and Need; Project Planning & Project Development cycle; Project Management Appraisal and Cost Benefit Analysis of Project; Implementation strategies for project execution & Network Analysis (CPM & PERT Chart); Risk Management: Risk and Uncertainties in Projects; Decentralized waste management through Public Private and community Participation; PPP Models for Street sweeping & Sanitation; PPP Models for Toilet Cleaning; E-Tendering & its Procedures; PPP Project Contracts and Factors for Success; Contract Management, Risk management & SPV.

PARTICIPATION:

70 participants included Zonal Sanitary Inspector, Chief Sanitary inspector and Sanitary & Food Inspector of ULBs from AMRUT cities of Uttar Pradesh were trained in the above training programme.

COORDINATION:

The training programmes were jointly coordinated by Dr Alka Singh Deputy Director, Dr A.K.Singh and Mr. Ajit Kumar Mishra Assistant Director, RCUES, Lucknow.

TRAINING PROGRAMMES ON ACCOUNTING, FINANCIAL PLANNING & MANAGEMENT (CAPSULE II)

BACKGROUND

Effective municipal government and administration as preconditions for efficient service delivery. With rapid urbanization and the pressure on urban areas for service delivery, the role of urban local governments is undoubtedly becoming important and, here, their financial capacity can hold the key. In municipalities there is a drive towards automating department level operations. While creating e-governance systems certain improvements and efficiencies, the true need is to take an integrated approach. These systems need to be integrated to each other and work as a cluster of interdependent modules. Municipal e-Governance esp. takes more than the adoption of new technology such as computers and mobile devices. While these new technology tools provide significant improvements in record keeping, searching, generating bills/receipts, storing large number of records and processing large number tasks etc. There are several institutional changes that are required to make e-Governance successful.

Training of end-users on the software and where relevant, new principles e.g. double entry accounting and processes like bottom-up budgeting. Training focusing on providing technical both software and processes as well as organizational support e.g. data entry. In many cases, there is a need to augment capacity to ensure better implementation. The reasons are primarily that of inefficient manpower and a skillset mismatch

Unfortunately, it is true and it has been well

documented and widely accepted that capacity constraints pose the single biggest threat to the successful implementation of e-governance systems.

The robustness of urban local bodies would be reflected in the state of their finances and in their capacity to look after their own needs. The basic requirement of financial sustainability must be intertwined with the need for financial powers.

Functional clarity and strengthening of local government finance and management should occupy centre-stage of the follow-up action on conformity legislations. Most municipal authorities today suffer from a wide gap between their perceived needs for services and the financial resources provided to them. Financial management has to do with efficient use of funds. It is a method of showing and ascertaining the financial position of government or business from time to time. The aim of this cycle of activities is to ensure that resources are allocated and monitored in such a way that they have the greatest beneficial impact on over all service objective.

In the above context Regional Centre for Urban and Environmental Studies, Lucknow organised a Training Programme on Accounting, Financial Planning and Management Cap. II under AMRUT at RCUES Lucknow on 21-23 November 2019.

KEY OBJECTIVES:

- The training aimed at providing a broader, more holistic perspective on the range of

Training sessions in progress.

issues confronting Indian cities and to explore new approaches to address them;

- To promote an active exchange of experiences and enhance awareness of national and international good practices for improving the accountability and creditworthiness of urban local governments and ensuring effective delivery of services, particularly to the urban poor;
- To assist city managers and senior staff of urban local governments in developing appropriate management, governance, leadership and organizational tools and strategies to enable them to discharge their duties more effectively; and
- To enhance the skills of urban sector professionals and enable them to formulate action plans to meet strategic goals of their institutions.

ABOUT THE SESSIONS:

The course contents included Enhancing Administrative Efficiency in ULBs; Strategy and Action Plan for Implementation of Reforms; Modern Office Management; Database management system, MS Suite and IT Applications; Improving Municipal Services Delivery through Smart Applications; E-Tendering & its Procedures; Application of IT for Enhancing Service Delivery in ULBs; Project Management System under AMRUT: Hands on Training of online Data Updation on E-nagarsewa, m-AMRUT App. & Online AMRUT Portal; E-governance and its Application in ULBs.; Budgeting principles and practices in ULBs; Asset/liability Management in Urban Local Bodies; Tax compliance and filling of Returns; RTI and its Legal Compliances; Code of Conduct & Disciplinary Rules; Record Keeping & Management; Store procurements; Travelling Allowance Rules and Leave Rules.

PARTICIPATION:

21 municipal staff including clerks Computer Operators and Office Assistants of ULBs of Uttar Pradesh were trained in two training programmes conducted on the subject during this quarter.

Certificate of participation awarded to participants by Dr A K Singh, Assistant Director and Dr Ajit Kumar Mishra, Assistant Director RCUES Lucknow

COORDINATION:

The programme was coordinated by Dr. Alka Singh, Deputy Director, Dr A. K. Singh, Assistant Director and Mr. Ajit Kumar Mishra, Assistant Director, RCUES, Lucknow

TRAINING PROGRAMMES ON E-GOVERNANCE, ADMINISTRATIVE EFFICIENCY, REFORMS & SOLID WASTE MANAGEMENT

BACKGROUND

Effective municipal government and administration as preconditions for efficient service delivery. With rapid urbanisation and the pressure on urban areas for service delivery, the role of urban local governments is undoubtedly becoming important and, here, their financial capacity can hold the key. In municipalities there is a drive towards automating department level operations. While creating e-governance systems certain improvements and efficiencies, the true need is to take an integrated approach. These systems need to be integrated to each other and work as a cluster of interdependent modules. Municipal e-Governance esp. takes more than the adoption of new technology such as computers and mobile devices. While these new technology tools provide significant improvements in record keeping, searching, generating bills/receipts, storing large number of records and processing large number tasks etc. There are several institutional changes that are required to make e-Governance successful.

Training of end-users on the software and where relevant, new principles e.g. double entry

accounting and processes like bottom-up budgeting. Training focusing on providing technical both software and processes as well as organizational support e.g. data entry. In many cases, there is a need to augment capacity to ensure better implementation. The reasons are primarily that of inefficient manpower and a skillset mismatch

Unfortunately, it is true and it has been well documented and widely accepted that capacity constraints pose the single biggest threat to the successful implementation of e-governance systems.

The robustness of urban local bodies would be reflected in the state of their finances and in their capacity to look after their own needs. The basic requirement of financial sustainability must be intertwined with the need for financial powers.

Sanitary workers are not well aware about the Municipal Solid Waste Management Rules, guidelines of septage management & management of sewerage & drainage, for this Capacity building of municipal functionaries is essential. In this context, Regional Centre for Urban and Environmental Studies, Lucknow organized a three days advanced Training

STATE LEVEL CONSULTATION ON PUTTING CITIZENS AT THE CENTRE SUSTAINING IMPROVED URBAN SANITATION SERVICES IN UTTAR PRADESH

BACKGROUND

The Regional Centre for Urban & Environmental Studies, Lucknow in collaboration with PRIA, New Delhi organized a state level consultation on “Putting Citizens at the Centre: Sustaining Improved Urban Sanitation Services in Uttar Pradesh” on 28 December 2019 at RCUES, Lucknow. The consultation aims to explore solutions for prevailing issues in urban sanitation sector of Uttar Pradesh centred on citizen engagement and multi-stakeholder partnerships.

KEY OBJECTIVES

- To discuss the ongoing initiatives in the area of urban sanitation in Uttar Pradesh
- To induce discussion on existing issues related to urban sanitation in the state
- To share good examples and instances of change from cities of Uttar Pradesh
- To evolve strategic ideas for transforming urban sanitation in the state through effective citizen engagement and behavioural change
- To appraise ULB's on Participatory Planning

and Monitoring for Inclusive Sanitation Services in the state

- To explore possibilities of multi-stakeholder partnerships for sustaining urban sanitation in the state

ABOUT THE CONSULTATION

Under SBM, Uttar Pradesh has made significant progress; however, it confronts multidimensional issues in urban sanitation such as lack of segregation at source, low processing of solid waste generated including organic waste and plastics waste, lack of decentralised community oriented processing of waste, low coverage of safe waste water conveyance and treatment systems etc. These issues need to be tackled at various stages of development of service delivery like policy, planning, implementation and operations/ maintenance.

The state level consultation explored solutions on the prevailing issues in urban sanitation sector of Uttar Pradesh centred on citizen engagement and multi-stakeholder partnerships. The main objective was to share good examples of change from the cities of Uttar Pradesh and

(L-R) Dr Anshuman Karol, Senior Programme Manager, PRIA; Dr. Kaustuv Bandopadhyay, Director PRIA; Hon'ble Mayor Mrs. Sayunkta Bhatia, Lucknow Municipal Corporation; Dr Nishith Rai, Director RCUES Lucknow, Shri Arun Kumar Gupta, Additional Municipal Commissioner, Jhansi Municipal Corporation and Dr Alka Singh, Deputy Director, RCUES Lucknow.

Participants during the consultation programme

appraise ULBs on methods for participatory planning and monitoring for inclusive sanitation services in the state.

The consultation attempted to find answers to some pertinent questions such as how do we sustain the progress achieved as a result of SBM? How do we deal with the challenges of septic tank management and ODF++? Now that the toilets have been constructed, how do we manage faecal sludge and for that what should be the preparedness level of the ULBs? What kind of capacities should the CSOs have? What are the responsibilities of academic institutions? How do we increase people participation in all these areas and what all do we need to do to make this sustainable?

Responding to these questions it was emphasized that unless a government programme is integrated with citizen movement by promoting local leadership, achieving its desired objectives might be very difficult. For example, if organic waste is completely segregated at individual level and its composting is carried out in a decentralised manner then the municipalities may save resources on everyday waste collection. For this partnership and collaboration with citizen is crucial.

Hon'ble Mayor Mrs. Sayunkta Bhatia, Lucknow Municipal Corporation, appreciated the Jhansi model of citizen engagement on the issue of urban sanitation and suggested that it should be adopted in Lucknow and other cities of the state. Dr Nishith Rai, Director, RCUES in his inaugural address stated that Jhansi model of citizen engagement could be scaled up at the State level to improve and sustain the solutions for urban sanitation in the state.

PARTICIPANTS

The consultation was attended by Hon'ble Mayor Mrs. Sayunkta Bhatia, Lucknow Municipal Corporation, Dr Nishith Rai, Director RCUES Lucknow, Dr. Kaustuv Bandopadhyay, Director PRIA and Dr Anshuman Karol, Senior Programme Manager, PRIA and the representatives of ULBs from across the state such as Kannauj, Agra, Jhansi, Bijnor, Shamli, Firozabad, Moradabad, Loni etc.

COORDINATION

The programmes were coordinated Dr. Nasruddin, Assistant Director, RCUES, Lucknow.

STATE LEVEL WORKSHOP ON ENGENDERING BUDGETS AND GENDER INCLUSIVE URBAN DEVELOPMENT

BACKGROUND

Inclusive urban planning and development is gaining momentum in the context of economic liberalization, globalization and new policy regime. In 1984, Austria introduced the first gender budget. Taking budgets as essential instruments for promoting gender equality, pioneering analysis of the impact of public budgets on gender relations was carried out. Since then, more than 90 countries have adopted gender budgeting as a tool for women empowerment and engendering development. In India too, many states, local governments, corporate houses and private agencies have initiated gender budgeting and have introduced specific policies, programmes and schemes for gender mainstreaming. programmes and schemes for gender mainstreaming. In view of the above, a three -day state level workshop was organized under the auspices of Ministry of Women and Child Development, Government of India, by RCUES, Lucknow on December 16-18, 2019 at Rudrapur, Uttarakhand to discuss and deliberate on pertinent issues of

engendering urban development and gender budgeting.

KEY OBJECTIVES

- To review the rationale of the gender budgeting as a tool for women's empowerment and also to discuss strategic framework of gender budgeting activities;
- To examine the policy initiatives, programmes, schemes and projects for gender mainstreaming and gender inclusive urban development in India;
- To discuss the tools of gender budgeting at state level and also share experiences of different states;
- To examine the problems, constraints and difficulties in gender budgeting at different levels;
- To discuss the role of various stakeholders and key players in gender budgeting;
- To examine the scope of gender budgeting in different sectors of economy, particularly in

(L-R) Dr. A. K. Singh, Assistant Director, RCUES, Mr. Manish Singh, Consultant, UNICEF, Dr. R. V. P. Singh, Deputy Advisor, NITI Aayog, and Dr. Nasruddin, Assistant Director, RCUES, Lucknow

departments and ministries of centre and state governments;

- To suggest measures for empowering women and gender budgeting exercises.

INAUGURATION

Dr. R. V. P. Singh, Deputy Advisor, NITI Aayog, Government of India, New Delhi, inaugurated the workshop. He highlighted that Women constitute half the world as well as in urban population. Gender planning and tools such as gender budgeting integrate these priorities into the urban development agenda, lay policy priorities, develop programmes, decide budget allocation priorities and create institutional mechanisms to ensure appropriate expenditures thereby providing significant opportunities for women's empowerment.

ABOUT THE WORKSHOP

In view of the objectives of the workshop, programme schedule was prepared. The programme was divided into different technical sessions including engendering urban

development, governance, theoretical, legal and policy perspective of women empowerment, gender budgeting, analysis of gender budgets, women centric policies, programmes, and schemes, planning for urban infrastructure development and delivery of civic services etc.

PARTICIPANTS

In the programme, Government of Uttarakhand nominated 76 municipal officials from urban local bodies and parastatal bodies of the state. Overall, 71 participants attended the workshop. The participants included Assistant Municipal Commissioners/ Executive Officers (27), State Mission Managers/ City Mission Managers (15), Government Post Graduate Colleges teachers (15) and others. Out of total participants, 10 participants were females.

COORDINATION

Dr. A.K. Singh and Dr. Nasruddin, Assistant Directors, RCUES, jointly coordinated the programme.

OTHER ACTIVITIES UNDERTAKEN BY RCUES LUCKNOW

- Under Smart Cities Mission, RCUES Lucknow has vetted 12 DPRS of Smart Moradabad, 9 DPRs of Smart City Saharanpur, SCADA DPRS for Kanpur Smart City.
- Under the U.P. State Smart City initiative RCUES Lucknow has vetted ITMS DPR for Ayodhya City.
- Under Swaccha Bharat Mission RCUES Lucknow initiated a model project of mechanized cleaning of Public and Community toilets in Lucknow city.
- RCUES Lucknow has been designated as nodal coordinating agency for Solid Waste management in Lucknow city which includes door-to-door collection, transportation and treatment of waste.
- Regional Centre for Urban & Environmental Studies, Lucknow is nodal agency for coordinating the work of Enhancement of Property tax in 16 Municipal Corporations through GIS Based Master plan, Unique Identity Number to each property and Revenue Enhancement.
- RCUES Lucknow as PDMC is developing projects for Water Bodies and Lakes rejuvenation under AMRUT for water stressed Urban Local Bodies in State of Uttar Pradesh also focusing on Rain Water harvesting in Public Parks and green spaces.
- RCUES Lucknow is the state nodal agency for setting up Citizen Facilitation Centre (CFC) in Municipal Corporations of Uttar Pradesh.
- Under Namami Ganage RCUES Lucknow has initiated development of parks and open spaces in 21Ganga Town of Uttar Pradesh with special focus on Rain water harvesting/Bio compost, Physical Health and wellbeing and green space enhancement of green cover.
